

SUMMER EDUCATIONAL PROGRAM

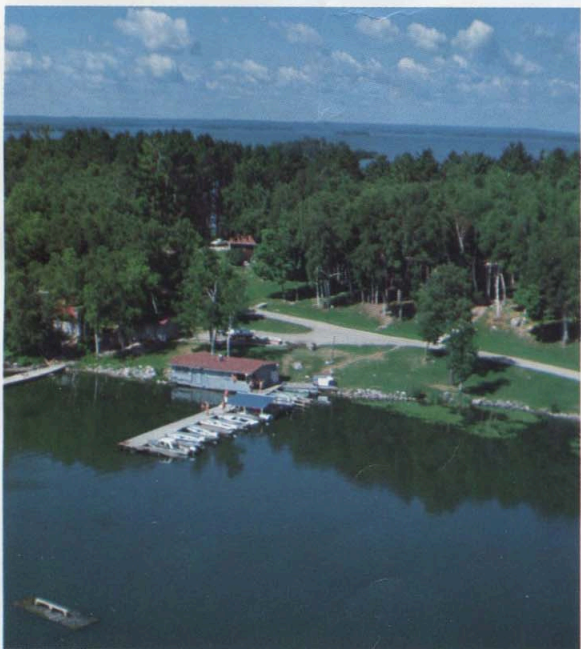

The Campus

Stately groves of birch, pine and black maple shelter student dormitories located on twin points of the northern shore of Pelican Lake. A private counselor's room and two twelve-bed dormitory areas are included in each student unit. A large common room in each unit is gabled and has a full wall of windows fronting on the lake and heightening the home-like atmosphere.

A BEAUTIFUL ENVIRONMENT uniquely set for learning opportunities.

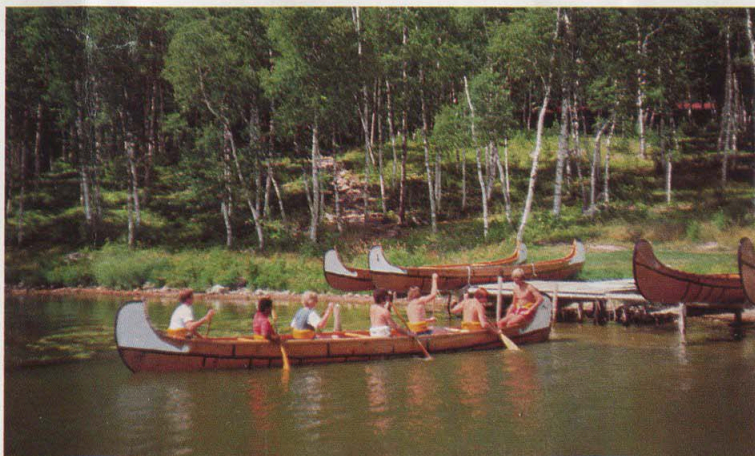

Archery and Riflery

During the summer, every boy and girl develops skill in archery and riflery. Thorough instruction is followed by hours of diligent practice. Safety is stressed in every phase as students learn skillful marksmanship. The coordination and self-discipline achieved by proper use of the bow and arrow or rifle gives a balanced sense of confidence.

Water Sports

Swimming is an important part of the activities at Y.O.U. Summer Educational Program. A special emphasis is placed on developing strong, healthy, well-coordinated bodies. Also, each student is required to know how to swim before he can water ski or go on a canoe trip. Energetic games of water polo along with swimming races help to balance out the instructional periods in this phase of the program.

The campus is a city in itself. All the services are here: excellent food, postal service, a fully equipped gymnasium, a Student Store, an Infirmary, Security Patrol, transportation to and from the campus. Faculty homes are strategically located for maximum assistance to students. The sixteen student "families" meet with the faculty and staff in the Dining Hall for meals and fellowship.

In addition, large shower and laundry buildings are available. The laundry rooms hold another opportunity for learning. Special instruction is given in the best method for keeping clothing clean, mended and neatly pressed. Successful performance in these essential tasks develops self-reliance and the satisfaction of doing a job well.

Water Skiing

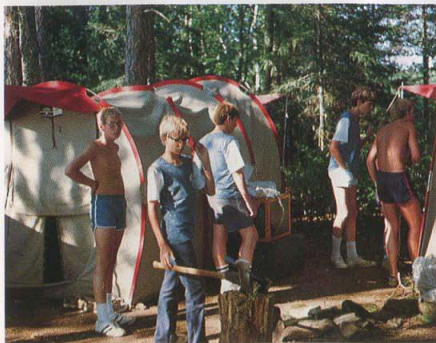

The thrill of straightening up on a pair of skis for the first time is an exhilarating feeling. The challenge, struggle and satisfying feeling of mastery makes this activity one of the most popular at camp. Putting on a water show has become an annual part of the 4th of July celebration in Orr.

Outdoor Living

Pelican Lake's more than fifty miles of verdant shoreline and scores of islands provide amply for nature study, canoeing, camping, rockclimbing and water sports.

Even beginning canoeists and campers experience the thrill of living in this wilderness environment and yet can be reached in minutes by motorboat from the campus.

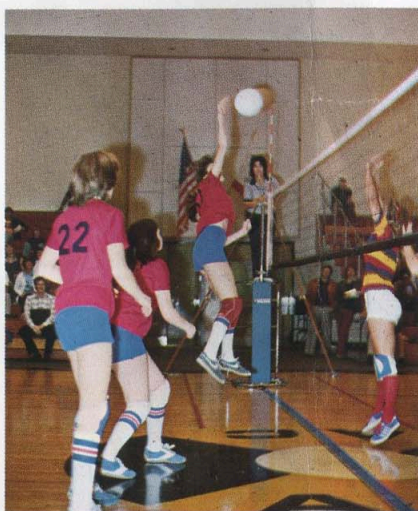

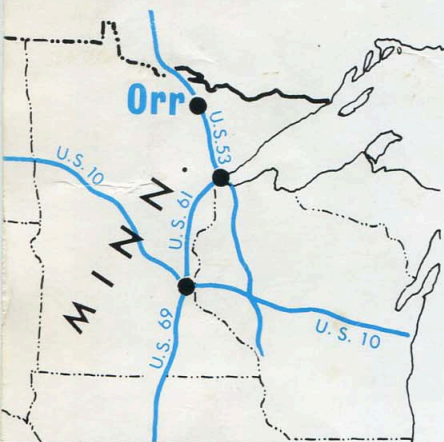

Recreation, dancing, barbeque & Y.O.U.

Much emphasis is placed on the social needs of our young people—special clinics in basketball, cheerleading and dancing help them become successful and comfortable in these areas.

Y.O.U. sponsors many other programs with the goal of helping our youth to help themselves lay a good foundation for a Christian life.

LOCATION . . . The campus of the Y.O.U. Summer Education Program is located in the heart of Northern Minnesota canoe country. The "Orr Campus" is one mile North of Orr, Minnesota directly West of Highway 53.

BUS There are direct bus connections to Orr via Greyhound bus. We will pick up students as they arrive in Orr.

AIR The nearest air terminal is Hibbing, or International Falls. We will plan to pick up students at this terminal upon notification of arrival time, by the parent.

PRIVATE Private transportation will, in general, best meet the needs of our students.
